## ANTIGRAFITTI SHIELD® TRANSPARENT SELF ADHESIVE FILM.

### COMPOSITION/INFORMATION ON INGREDIENTS

Components  
Material CAS Number % Oriented Polyethylene film. May contain a 100 coextrusion layer. Various fillers or additives used to modify the physical appearance and/or surface properties may be present.

Base Film:  
Polyethylene Terephthalate 25038-59-9 55-100  
Coextrusion layer (if present):  
Isophthalate Copolymer 24938-04-3 8-20

The following Fillers and/or Additives may be present in one or more film types:

Poly Ethylene/Vinyl Acetate  
ANTIGRAFITTI SHIELD® TRANSPARENT SELF ADHESIVE FILM.

**Material is not known to contain Toxic Chemicals under Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR part 372.**

### HAZARDS IDENTIFICATION

#### Emergency Overview

**Appearance: Solid film**

**Odor: Odorless**

**No known health hazards at ambient temperature.**

**Read the entire MSDS for a more thorough evaluation of the hazards.**

#### Potential Health Effects

**High temperature operations using polyethyleneFilms can produce fumes or vapors of decomposition products of polyethylene terphthalate and isophthalate polymer.**

**The type and quantity of the fumes or vapors will vary based on temperature, time and other variables. These fumes or vapors may cause eye, nose, throat or respiratory irritation, or other effects such as headache.**

**Molten polymer can cause thermal burns.**

**Exposure to components used as fillers is not likely as these are encapsulated in the polymer and fully incorporated into the film.**

#### Carcinogenicity Information

**The following components are listed by IARC, NTP, OSHA or ACGIH as carcinogens.**

**Material IARC NTP OSHA ACGIH**

**Titanium Dioxide 2B**

**Carbon Black (only in black films) 2B**
